EDDIE G. WHEELER

Our Seedling No. 13

Named for my wife. A georgeous soft pink of Donckelaeri form having a beautiful and distinctive sheen circle of bright golden stamens. Flowers from four to five inches in diameter. January through March. Foliage of medium size oval cuspidate crenate, slow but compact growth and free flowering. Runner up for best flower in two Macon, Shows. Named in honor of Mrs. R. L. Wheeler.

EDDIE G. WHEELER VARIEGATED

The plants and flowers are identical with Eddie G. Wheeler. Except the mottled white markings on the delicate pink ground makes this a most beautiful flower. And will add to any collection.

ARLENE IGNICO

Our Seedling No. 161

An outstanding l o o s e l y formed incomplete double flower, resembling Reticulata in form flower and foliage. Foliage lanceolate, crenate to serrate. Midseason flowering of compact growth.

WHEELER'S FRAGRANT

Our Seedling No. 11

A cross pollinated seedling of James Hyde Porter by Herme. It inherits the habit of growth, the form of its flower and early flowering season from the James Hyde Porter and from Herme its color and it exceeds Herme in Fragrance. Flowering during the fall season makes this a most satisfactory variety. Flowers are semi-double to incomplete double Herme colored. Four to five inches in diameter. Semi upright and r a p i d grower.

LOIS NORVELL

Our Seedling W-7

Named in honor of Mrs. Lois Norvell in Atlanta Camellia Show, Feb. 7, 1953.

It is a semi double dark red of unusual form. Prominent short circular stamens, decidedly red at base of stamens. Somewhat resembling Iwana Shibori, stocky upright grower, dark green foliage and flowers on strong stems. Very slow grower and stands low temperature extremely well.

By grafting this has become variegated. Dark red and white. Variegated kind will be Lois Norvell Variegated.

Our Introductions For 1955

Miriam Stevenson

Our seedling No. 205 is an exquisite bloom of rare beauty. It is semi-double to incomplete double and the most beautiful shade of pink ever attained by a camellia. This soft pink has been admired by everyone seeing it in bloom. The blossoms range from 4 to 6 inches.

A flower of this variety was cut on Tuesday and carried to a meeting of the Middle Georgia Society in Macon. Then placed in refrigerator, and entered in the Atlanta Camellia Show the following Saturday. Here it was judged the best seedling in the show, and won a Certificate of Merit of the American Camellia Society.

It will win admiration and plaudits everywhere and it is tops in the blush pink varieties. Since being such a rare beauty, it was chosen to be named in honor of Miss Miriam Stevenson, the most beautiful girl in the world. Miss Stevenson was judged Miss Universe of 1955.

MARY ANNE HOUSER

Our Seedling No. 61

A very large and deep incomplete double rose with large petaloids irregularly formed. The foliage is medium green and the plant is an upright grower. This seedling bloomed first in 1948, it has proven very satisfactory since that time. It is named in honor of the only daughter of Dr. and Mrs. F. M. Houser, one of Macon's most enthusiastic camellia growers. In 1954, this variety was judged best seedling in our Macon show, winning the Sears Robuck Silver Trophy.

This variety first offered for sale in 1954. It was judged the best flower in the 1955, Atlanta show.

Camellia Japonica Grafts

We offer the following list of Camellia Japonica grafts. Among these are one, two and three year old grafts. They are grafted mostly on Camellia seedling stock that has flowered. These understock will vary from finger size to one and one half inches in caliper.

We offer this season our new varieties that you will find in this list. We have had them under observation for several years and think them to be among the best. They will add much to your present collection.

This list covers about three thousand grafts. Some we have only in limited quantities. First come, first served.
